21st Century Learning

Grant Keleher | Principal

This week I have been fortunate enough to have spent three days in Sydney at the Edutech conference. This conference was very inspiring as it focussed on how to improve our teaching and learning within a 21st Century context.

For me there were many indicators that confirmed the pathway that we are already upon. It also highlighted areas that we could develop further. I am very excited to be back at school looking at how we can improve the product we offer at our school.

- Beth Hector
- Shayla Vince
- Helen Moloney
- Emma Westbrook
- Courtney Dayman

SA Excellence in Public Education Awards

This year we have been fortunate enough to have five of our staff nominated for an Excellence in Public Education Award.

This is a huge achievement from a school our size and reflects the amount of hard work our staff are putting into achieving high quality outcomes for our students. The quantity of nominations from Central Yorke School is one of the highest in the state.

Furthermore, music teachers Debbie Schwartz and Tim Tuck have been nominated for the National 'ARIA Music Teacher of the Year' award.

I am proud of both the staff and students here and the amount of time and effort they display to improve the standards and culture across our school.

School Activities

There have been so many different school activities going on in the past fortnight that are all providing pathways to creating a culture of evidence.

It has been great to see all of the success that has been happening from these activities.

SAPSASA football

Congratulations to Will Davey, Flynn Briggs, Thomas Triplett, Harrison Geater-Johnson, Jackson Davies, Ollie Linke, Jett Hasting and Henry Butler for their part in the SAPSASA football team.

They ended up finishing equal second in their division winning 8 out of their 10 games.

Front cover

The SAATSA team poses outside the Alan Scott Power headquarters building after their 2018 win of the Power Cup.

SAPSASA Netball

Further congratulations to Alice Burrows, Bethany Hollams, Hilary Longstaff, Taylor Davies, Molly Rowe and Ella Wheare who were part of the two netball teams with CYS representatives. Team 1 finished 4th in their division while the second team finished 5th in their respective division. Our site had the most representatives of any school!

State Representation

Congratulations to Jett Hasting who has been selected in the State SAPSASA football side.

Oakbank Cross Country

Congratulations also go to Alice Burrows, Annabel Geater-Johnson, Brody Davies, Elouise Johns, George Butler, Marley Holmes, Molly Rowe, Oliver Linke, Rhys Heinrich, Sadie Polkinghorne, Sam Davey, Terryn Rich, Tommy Linke and Tyson McWaters for their participation in the SAPSASA Oakbank Cross Country.

State Team Trial

Special congratulations to Ollie Linke for his 15th position in the cross country which wins him a State Team Trial position.

His time this year was 11mins 33 seconds and there were 141 competitors!

8/9 Football zone team

Congratulations to Sam Allen, Lachie Johns and Oscar Moore who were selected to play in the 8/9 football zone team after the nine-a-side football competition.

Round 1 was held against Kadina and in a close and entertaining match Kadina just managed to come out on top by 9 points. Coach Ben Davey says he was impressed by the attitude, behaviour and effort by all boys. Well Done!

UniSA visit

UNISA have visited our Senior School students to look at university pathways beyond high school.

Commonwealth Bank

The Commonwealth Bank presented the 'Start Smart' program, speaking to our secondary students about the value of money, budgeting and investing.

SAASTA Success

Well done to the Central Yorke SAASTA girls team who won the 2018 Power Cup and the boys' team who finished runners up for the second year in a row..

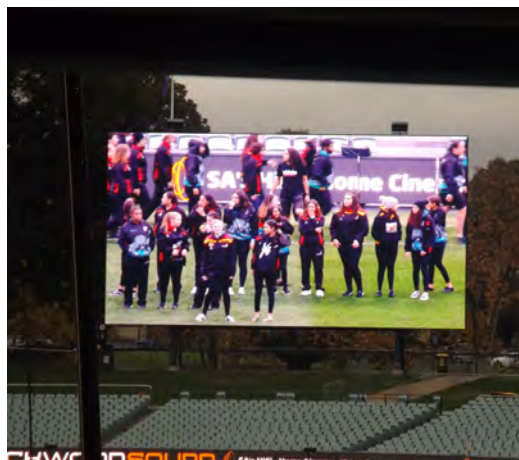

Although we didn't win the most games we were the highest scoring academy in regards to the academic and attendance streams. I am so proud to see our ATSI students doing so well at their study.

Additionally, the way they carry themselves and represent our school is a credit to them as both individuals and group. Our SAASTA program provides an experience for our students to show many other much larger schools that we at Central Yorke promote a culture of excellence and resilience. This sets the benchmark for future students of the expectations of our program.

Congratulations must go to the SAASTA staff for all of the preparation and effort that has gone into making this program a success.

Reconciliation Week Activities

I would like to thank all staff involved in facilitating Reconciliation activities.

There are 5 key reasons why we acknowledge and support National Reconciliation Week:

1. Working together to close the gaps between indigenous and other Australians benefits all Australians
2. Building mutually respectful relationships between Aboriginal and Torres Strait Islander and other Australians is core to reconciliation.
3. Reconciliation didn't end with the bridge walks or The Apology
4. National Reconciliation Week is a time to reflect on what we can do to make a difference
5. We all have a role to play in reconciliation.

There were a lot of activities that our staff and students took part in to make sure that we don't keep our history a mystery. Keep an eye out at our Facebook page to see some of the things our classes did.

Until next time, Grant.

28 PBL Expo

29 Climbing Kanchenjunga Fundraiser
Project Empower Workshop

On the Importance of Sleep

Dave Love | Head of Point Pearce

Recently many children have been arriving to our pre-school and school extremely tired, for a whole variety of reasons. This has resulted in some of them being very teary and irritable before their day of learning even begins.

Medically backed advice states that children of this age group require between 10-12 hours of sleep per night to be able to function and develop properly.

Please make sure that your child is getting to bed at a reasonable hour and is receiving the proper amount of sleep each night; to rest, recharge and be ready to face a new day.

Children's learning is greatly affected by lack of sleep. Please come and see me with any concerns about this matter.

'Gym Jams' Excursion

Recently the whole Pre-School and R-2 Class travelled to Ardrossan to attend a 'Gym Jams' session. With such a large variety of activities and pieces of equipment to play on the children were kept busy the whole time.

This tied in beautifully with our Early Years Philosophy which states that

...‘children’s learning is supported through play’...that they ‘need to be challenged’... and that play areas need to be ‘inviting and engaging’.

‘Non-stop action and fun’ is how I would describe the session! The children all had a great time challenging themselves and were physically exhausted after it.

A big thankyou to all of the organisers, and to Trevor Allen for driving the whole group over there.

After School Football

From the start of this term I've been running Aussie Rules sessions on Wednesday afternoons from 3:45–4:30pm for any interested children living at Point Pearce. The average attendance per session has been 18 children, boys and girls varying in ages from Reception to Middle School. Some basic fitness and skill sessions are taught, followed by some goal shooting and then a ‘scratch match’ between two teams. In the short time they have been

running, I have noticed a big improvement in student confidence and skills and have seen children working better in team situations. All students are welcome.

The only time it will be cancelled is if it is raining. Thanks to Ernie Wilson for helping out the other week with a handball drill, it was greatly appreciated.

Maitland Primary Staff Visit to Point Pearce

On Wednesday June 6th, between 2–4pm. Ms Clift, Mrs Allen, Mr Jury and Uncle Eddie held meetings with parents and family members at Point Pearce in our school Library. They discussed a whole range of matters relating to their children who attend the Maitland Campus but live at Point Pearce.

Feedback from both teachers and parents/families has been very positive. It was a great opportunity to share information between both parties, here at Point Pearce, in an informal setting. It was a great initiative by the Primary staff and one that I believe should be repeated and developed even further.

ABORIGINAL POWER CUP

Shayla Vince | SAATSA Coordinator

On June 5, the Stage 1 and 2 SAATSA students headed to Adelaide for the Aboriginal Power Cup. We took 17 students in total which allowed us to play 8 boys and 9 girls in the competition.

Student Opportunities

This event give students the opportunity to compete in a nine-a-side football competition against rural and

metro schools, attend the Adelaide Careers Exposition, be part of a Motor Accident Commission commercial and perform in a cultural dance on Adelaide Oval.

The cultural dance encouraged students to feel proud and a part of the larger community. Watching them perform with 350 other indigenous students on Adelaide Oval was amazing.

Excellent Results

CYS boys and girls teams won 4 out of 10 football games and were successful in making it to the Grand Final which meant playing on Adelaide Oval before the Richmond and Port Adelaide game.

Teams are chosen based on attendance, behaviour and quality of work. The students were full of excitement and

enthusiasm as we arrived at Adelaide Oval and got to use the Australian Cricket change rooms to prepare for the game.

Standing on Adelaide Oval, looking around at the desperate fans barging in to find a seat made the students feel nervous yet excited to have a crowd watching them.

The girls played a fantastic game and won the Power Cup and the boys came runners up.

Yeti Hunt

Tim Tuck | Coordinator of Learning & Innovation

This year's school production is 'Yeti Hunt', a musical adventure set in far-flung Nepal, on the slopes of the mighty 'Kanchenjunga', highest mountain in the world!

Well, it was certainly once *considered* to be the highest in the world. Right up until 1852 in fact when the Great Trigonometric Survey of India came to the conclusion that Mount Everest, (known as Peak XV at the time), was the highest. Just *how* Everest becomes higher is an important part of the show!

We've started auditions for many of the roles, which this year include:

- The heroine Yami Tamang and her family of orphans who run the famous 'Yak and Yeti' teahouse.
- The hero Himal Bhandri, an itinerant magic-finder and his best friend, Nak the incontinent Yak.
- The evil mountaineer Baroness Berhmut and her equally evil Shaman offside who want to be first to climb the mountain.
- The nasty Mayor Sasto who runs the *not* so famous 'Kanchenjunga' teahouse.
- A mountain full of English and French alpinists, all hoping to reach the summit.
- Assorted villagers, mountain guides, Prussian guards, and floating-monks.
- And of course, Yetis (of all shapes and sizes) galore!

Congratulations to Year 6 students Taylor Davies (Yami), Nichloas Heinrich (Himal), Molly Rowe (Constable Prahari) and Hugh Crawford (Dewar) for winning the first round of roles.

Fundraising for Nepal

In past years we've used the musical as an opportunity to not only raise students' awareness of life in other countries but to raise money for less privileged communities.

For example, we donated a portion of the profits from 'Compass Rose' to help build a music school on Easter Island. This year, we plan to raise money for an orphanage in Nepal: the 'Happiness Home'!

The Happiness Home

The Happiness Home Orphanage and school is situated in Katmandu and is home to twenty five children between the ages of 5 and 18.

Their original uilding collapsed in the 2015 earthquake. Yorketown resident Kay Barlow had visited several years early and when she heard that the children were homeless and without food or clothes, rallied YP locals to raise unds for immediate help.

CENTRAL YORKE SCHOOL PROUDLY PRESENTS

yeti Hunt

By Tim Tuck

10:30am Wednesday September 26 | 7pm Thursday September 27

CYS Performing Arts Centre

CLIMBING KANCHENJUNGA

Friday June 29
1.30-2.30pm
Ardrossan Hill, Maitland

GOAL

We want to raise \$451 to purchase solar panels for the 'Happiness Home Orphanage'^{***} in Katmandu, Nepal

ACTIVITY

We're going to walk up the Ardrossan Road into Maitland multiple times to reach the equivalent of 8,586m, the height of **KANCHENJUNGA**, the world's third highest mountain^{***}.

SPONSORSHIP

We're asking families to sponsor students a small amount for each time they reach the top of the hill. We expect most climbers to complete 3-4 circuits in the time. 50c-\$1 per circuit would be appropriate.

*The Happiness Home Orphanage and school is situated in Katmandu and is home to twenty five children between the ages of 5 and 18.

** Kanchenjunga was thought to be the highest mountain in the world until Everest was properly measured. Kanchenjunga is also the setting for this year's school production "Yeti Hunt".

The Happiness Home

The Happiness Home Orphanage and school is situated in Katmandu and is home to twenty five children between the ages of 5 and 18.

Their original building collapsed in the 2015 earthquake. Yorketown resident Kay Barlow had visited several years early and when she heard that the children were homeless and without food or clothes, rallied YP locals to raise funds for immediate help.

Fast forward to 2018, and the Yorke Peninsula based 'Nepalese Orphanage Committee' have helped purchase land, build a new home, pay school fees, fund teachers and health programs and support Nanu Rai, the Nepalese founder of the orphanage.

Climbing Kanchenjunga

To assist this valuable work, and in particular support the schooling of the children we plan to not only donate some of the musical's profits but to also hold a fund-raiser on Friday June 29.

On that day we're going to attempt to climb Kanchenjunga's height: a whopping 8,586m!

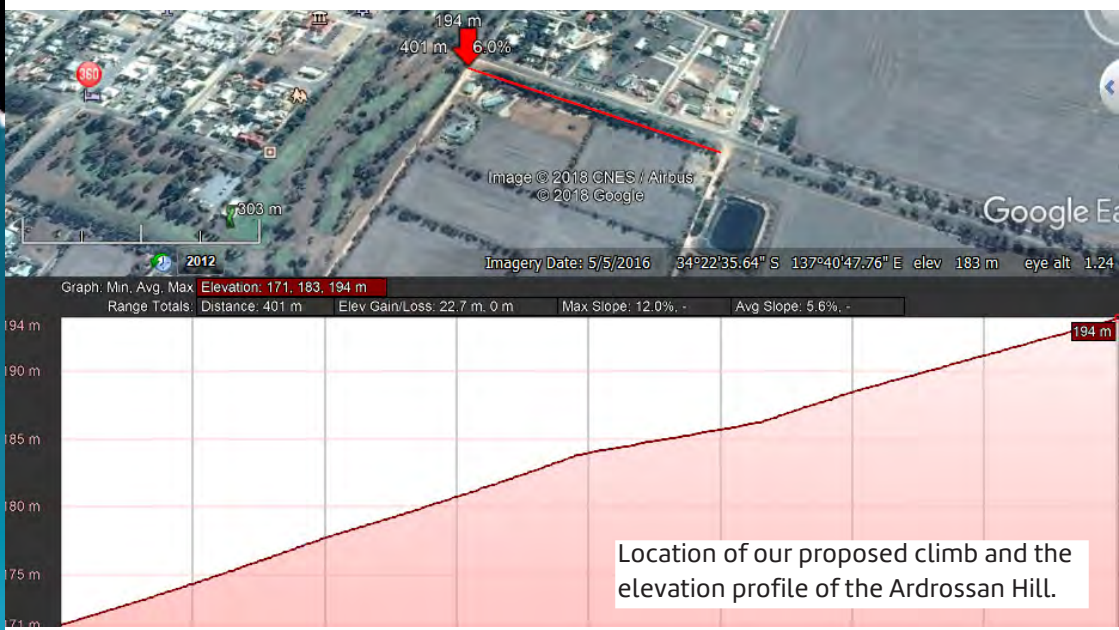

Since we don't have a handy mountain nearby, we're going to instead climb the more leisurely slope of the Ardrossan Hill into Maitland.

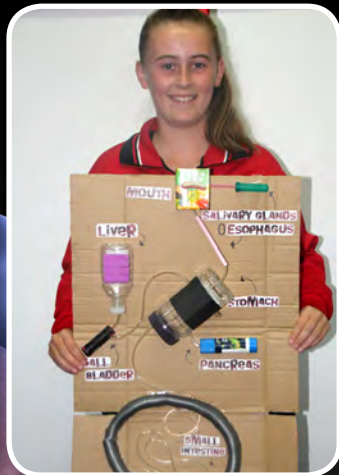

Starting at the bottom on the southern side, we're going to trek up through the verdant forest of pine trees (thank you Judith Davies!) and 23m change in elevation until we emerge at the top on the golf course. Then we're going to head back down and do it again. And again...

All up, we'll have to complete 373 laps to make it to the equivalent of Kanchenjunga's summit. But with 100 students participating, each student will just need to make it four times.

Next week we'll send home information with students regarding times, clothing and sponsorship details.

It's an exciting adventure and a great way to kickstart this year's production by raising funds for children in Nepal!

7/8T Digestive System Models

SAASTA Duke of Edinburgh Award

As part of their Bronze Duke of Edinburgh, SAASTA Connect students have been maintaining the school garden for their Service component. Students have been involved in weeding, mulching and removal of waste products so far. Students will also complete hours for the Physical Recreation and Skill components as part of this Award.

Lauren Smith | SAASTA Connect teacher

Days 1-3

It's my first day in my egg and I'm quite warm, but I'm a little scared because I can't see yet. I'm really small compared to the egg that I'm in but I am starting to feel my heart beating and I'm getting bigger and bigger every day.

Days 4-8

A few days have passed now and I can finally see! Also my elbows and knees are starting to form and I can move them now. Now I can see my toes starting to form too. I'm also starting to feel that I have a beak!

Days 9-14

Another few days pass and now I can open my beak and I'm feeling really warm and cosy because of my new feathers. Now on the tips of my toes I can see these little claws that have grown and they look a bit pointy. It's been about a week in my egg now and I'm feeling a lot bigger, because I have less room in my egg than a few days ago. I'm getting some scales on my feet and legs that feel kind of weird to me. I also have eyelids now and have moved to a more comfortable position in my egg, because I'm so big now I'm getting a little squished!

Days 15-19

I've been in my egg for about two weeks now and I have a lot of feathers covering my body now too. I've moved again because I'm almost too big for my egg! I have also absorbed most of the yolk now.

Days 20-21

I think I'm ready to see the world now, so I've made an internal pip. I'm feeling really excited to see what everything looks like and to meet some other chicks. It's now been another day and I finally made my external pip, then hatched my way out and saw the world!

Bethany | 7/8T

7/8T Chicken

Over the past month, the 7/8T class have incubated eggs and kept a diary of their progress – from the chickens's point of view!

We're showcasing Bethany and Rory's diaries, but the others are read-worthy too.

Diaries

Well done to the class for their parenting skills and a big thank you to Kylie Woolford who donated extra hicks to the class when she heard that our hatching percentage was low this year.

1. I can feel this repetitive sound I starting to get used to it though because it won't go away.
2. My tail is getting a little bit longer and I've got a head
3. Now I have 4 things on the sides of me I can't see anything also there is two on each side
4. I can see! I can see! Also now I have joints on those 4 things
5. I've got a heap of room in here!
6. Now I have digits on those things I'm going to call the wings an arms!
7. I've got this kind of gap in my head I'm calling it a beak. I think I'm going to get out of here
8. My beak's getting bigger, I could maybe use it to dig out of here!
9. Now I have a bump on my beak
10. I think I'm sick, now I'm getting bumps on my butt
11. Hey my beaks opening now I can think aloud, I'm going to call myself, hmmm, Myles!
12. Now I've got sharp things on my digits
13. Oh gosh, I can feel feathers on my butt now!
14. Now it's really smooth on my feet and legs
15. I've got extra skin around my eyes and watch this, I can blink!
16. I'm getting cramped in here, I think I will change my position
17. Uh! This yellow thing is going up my butt!
18. Now I have fluffy things all over me!
19. Now I'm so cramped that I have to put my head between my legs!
20. The yellow thing is now gone!
21. Alright let's get out of here!
22. Wow there's way more space out here than I thought there would be!
23. Hey who's this guy who's picking me up

Rory | 7/8T

Project Based Learning

2018

7/8C Viking Animations

How would a Viking deal with modern day life?

For their 2018 Project Based Learning Unit, 7/8TC are answering the question:

"How would a modern-day Viking deal with life in the 21st century?"

To answer this intriguing question, 7/8 Clifford students are combining their knowledge within English and HASS to create an animation based on "The Modern-Day Viking".

Students have responded to this prompt with a variety of ideas including

- Viking hairdressers
- Viking footballers
- Viking bartenders.

They've then used stop-animation techniques to create informative and amusing animations.

We look forward to showcasing these animations at the Project Based Learning Expo later this term.

- ← Above Left: Creating props and scenery.
- ← Searching via Google for design ideas.

Music Is Fun 2018

Tim Tuck | Music Coordinator

The Music Is Fun Band made its annual trip to CYS on Thursday June 7 to perform for our K-6 students and children from the Maitland Lutheran School and Ardrossan Area School.

As always, the band brought its high-excitement, high-participation concert to the Recreation Centre and it was just minutes after the show started that students were singing, dancing and clapping along with the opening song, the classic ACDC hit, "High Voltage Rock'n'Roll".

Preparation

Preparation for the show begins several months before, with students learning the songs being selected to dress up for one of the many audience-participation songs.

This year our students dressed as ACDC stars in the opening song, worms in 'Doctor Worm', superheroes in 'Everyday Heroes' and as baboons in 'My Neighbourhood's Been Taken Over By Baboons'.

Music Education

The show is not just about having fun, there's a solid educational core as well.

This year we learned about the South American rainstick, improvisation, paradiddle-drumming patterns, the drumline and bagpipes.

Highlights

There were lots of special moments, but the giant worms of 'Doctor Worm' and the impassioned percussion playing in the finale were both audience favourites!

Thank you to...

Thank you to all the students; your behaviour and involvement was exemplary. Thank you to the classes that helped setup and then pack up the chairs and mats. Your help was particularly appreciated when it started pouring with rain!

And thank you to Andre Osterbaan and the Music Is Fun Band for yet another fantastic show!

The Year 9/10s had a 'Masterchef' lesson last week. They were given basic ingredients of milk, eggs and butter and then had to find a recipe. Taryn and Steph made a rainbow cake (Mrs Davies showed

off her icing skills). D'Shon, Mitchell and Kelani made some very impressive chocolate eclairs. We also had banana cake, melting moments and some pinwheels!

WHAT'S COOKING?

CRUSH THE CAN!

On Friday the 8th of June Miss Beagley's year 4/5 class were invited to visit the Science lab for an experiment hosted by Ms Le Feuvre's year 9/10's. The students looked at making cans 'implode'. A fantastic morning of collaboration across our primary and secondary. Thanks for having us!"

Piggery Visit

↑ A great experience for the Year 10 Ag class visiting Humphrys Pt Vincent piggery. We all learned so much and had lots of hands on with the livestock.

Bottle Fed Lambs

↑ Thomas brought in his pet dorper x merino ram to teach the Year 7/8 Ag class about raising bottle fed lambs.

Primary Assembly

↑ Mrs Westbrook handing out the merit cards at last week's primary assembly.

Junior concert band

↑ The Junior Concert Band rehearsing for the Balaklava Eisteddfod.

Tiny Team Wins On Mountainous Scale

Media release from SASKI on behalf of the SA Interschools Snowsport Championships

In a first for South Australia, a small school from the flat farming land of Maitland, Yorke Peninsula have won a prestigious award from Australia's snowsports peak body, Ski and Snowboard Australia (SSA).

CYS Team

The team from Maitland, Sam Davey (10), Tommy Linke (10), Will Davey(12) and Ollie Linke (12) have won the coveted Outstanding Achievement of the Year for Small Schools Award presented by the snowsports peak body, Ski and Snowboard Australia. They beat many very experienced small schools in the Southern half of Australia.

Beginnings

It all began on a ski holiday when the families entered the boys, representing Central Yorke School, as a team in the SA

Interschools Snowsport Championship in Falls Creek, held during the July school holidays last year. They won their division and with some hastily acquired racesuits, they were off to the National Interschools Snowsports Championships held in Mt Buller, September 2017.

'It was so amazing and exciting to receive this award. We got a taste of racing at the SA Interschools at Falls Creek and then with the help and advice of SASKI members were able to compete in nationals. Such an awesome experience.' Ollie Linke, Year 7 CYS

They put their big win down to keen spirit and training on the snow. “We are so very proud and impressed with our boys from the flat fields of Yorke Peninsula taking on all of the small schools of Southern Australia in Snowsports. They have won the award because of their sheer determination and willingness to have a go”, said Mum, Letitia Linke.

Next year

The boys can hardly wait to have another go this year at the SA Interschools Snowsports Championships, organised by the SA Snowsports Association Inc (SASKI), again held in Falls Creek during the SA school holidays, 15 to 20 July. They may be able to do it all again with help from other school families holidaying at the same time.

Last year there was an all-time record of 43 SA schools represented from all around SA at the SA Interschools Championship in Falls Creek. SA Interschools Chairman, Kati Wenk said, “it was great to have so many schools represented. It is fantastic to see schools encouraging their young snowsports

athletes. Skiing and snowboarding are unique sporting pursuits that are so healthy and can be enjoyed at any age or ability.”

South Australian Snowsports Association Inc (SASKI) is a volunteer based organization who facilitate the running of SA Interschools Snowsports Championship from here in SA, with the support of Falls Creek Resort.

School Team Results

2017 Champion Primary Girls:

- 1st Pembroke

2017 Champion Primary Boys:

- **1st Central Yorke School**
- 2nd place: St Ignatius (on tiebreaker)

2017 Champion Secondary Girls

- 1st Cornerstone College
- 2nd Pulteney Grammar

Champion Secondary Boys

- 1st Cornerstone College
- 2nd Pulteney Grammar

School News & Information

Parents & Friends Meeting

P&F meeting Friday 22nd June @ 2pm in CY library. Any new faces most welcome!!

Thank you!

A huge thank you to Danny Allen, Shannon Palin, Sam Johns and David Ramsey for seeding our Ag Block.

Seeding started about 4 weeks ago and happened seamlessly and timely. Fertiliser has already been applied and crops are looking good.

Students have been completing crop inspections to identify any pests and physiological conditions.

CYS Payment Methods

Central Yorke School now offers the following payment methods for your convenience

CENTREPAY

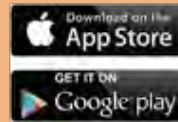

Use Centrepay to make regular Deductions from your Centrelink payments.

Centrepay is a voluntary and easy payment option available to Centrelink customers.

Go to humanservices.gov.au/Centrepay for more information and to set up your Centrepay Deductions.

Central Yorke School's Business Centrelink Reference Number: **555-070-299-X**

QKR!

With Qkr you can order & pay: School Lunches, School & Kindy Fees, Uniforms, School Events, Excursions.

Internet Banking

Acc Name: Central Yorke School Council Inc.

BSB: 105 040

Acc No: 174 163 840

Cash & Credit Card

Of course we still accept cash or credit card payments at the Student Services office.

Nationally Consistent Collection of Data

School Students with Disability

Dear Parents,

All schools are required to collect information about the numbers of students that they provide adjustments to under the Disability Discrimination Act (1992) and Disability Standards of Education (2005). From 2018, this data will be used as the basis for national funding.

The NCCD involves the collection of;

- the number of students receiving adjustments to enable them to participate in education on the same basis as other students
- the level of adjustment provided to students
- student's type of disability if known

Under the model the definition of disability is broad and includes learning difficulties, health and mental health conditions.

If your child is identified for inclusion in the Collection, the required information will be included in this year's data collection.

If you have any questions about the data collection, please contact Helen Moloney at school on 8832 2613.

Further information can be found at:

<http://www.education.gov.au/nationally-consistent-collection-data-school-students-disability>.
