Night at the Museum

Our Project Based Learning curriculum culminated last Wednesday night with “A Night at the Museum”, held at the Maitland Museum. The students have been working hard to try and create some exhibits for the Maitland Museum to attract visitors and showcase the rich history of our very proud community.

I was overwhelmed by the community support this project received when I arrived to the Museum and had to firstly line up to get in and then struggled to move around the Museum because of the sheer number of people. The pride of our students when they were presenting was evident and I could see that certain

elements of the exhibits triggered many a happy memory and conversation starter for our parents, grandparents and special people that visited the Museum.

A huge thank you must go to Tim Tuck whose idea this was. He has done an amazing job supporting classes and orchestrating this massive event. He even wrote a song especially for the night, which our choir performed beautifully.

The Maitland Museum itself is a gem in the town of Maitland and is up there with the best local museums I have ever seen. I know I’ll be taking my family back there again and taking my time to go through it and truly appreciate the effort put into maintaining and showcasing our history.

Central Yorke Football Academy

It is with great pleasure that I announce that Central Yorke will be a specialist football academy for our senior school students from 2020 onwards.

We have partnered with the SANFL, Woodville/West Torrens, Port Power and the YPFL to create this initiative. As a result CYS will be offering 25 spaces for a male team and a female team to undertake the study and practical components of AFL as part of their curriculum.

The curriculum will consist of Level 1 Coaching, Umpiring and Trainers courses as well as AFL in the media, enhancements in sport and tactical awareness of the game.

The practical component will be team based with the academy competing against other teams, such as SAASTA, Eagles underage and other school sides. Students will be provided opportunities and get coaching from some of our best footballers from the Eagles and Power sides.

Depending on the success next year we are also looking to expand this to a specialist program for Years 8-12. This is a really exciting opportunity and one that we think will only benefit our school, community and greater region. More information will be coming out to students at our SACE nights and there are also posters at the local football clubs.

SACE Parent Information evening

This Monday August 26 and Tuesday August 27 are our SACE parent information meeting. It is a time where students and their families can continue with their PLP journey and start looking at future career paths and ask questions about appropriate subjects for next year. It is also a night where parents can gain an understanding about SACE.

I highly recommend our students and parents going along to this. Information has already gone home in the form of a letter as well as on the school app, school Facebook

page and newsletter. Staff will be on hand to answer any questions that you may have in regards to curriculum.

Pupil Free Day/School Closure

Can parents please note that we have a pupil free day Tuesday the 3rd of September. Staff will be working on Formative Assessment, Site Improvement and Student Behaviour Management through Interception. This day was chosen as it is one of the only days available for the experts who will be coming up to run the day.

There is also a school closure planned on Wednesday the 25th of September for the Yorke Peninsula Field Days. Being an Agricultural Focus school it is important we allow our community time to access the Field Days and see the possibilities that Agriculture can provide outside of a school setting. It gives all of our families a day to visit Paskeville and support the learning of the school.

Until next time.

NIGHT AT THE MUSEUM

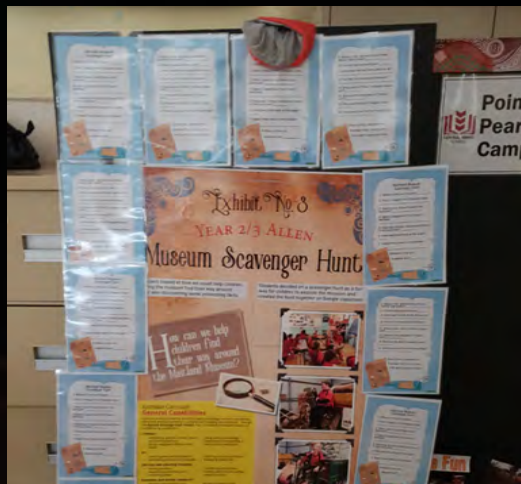

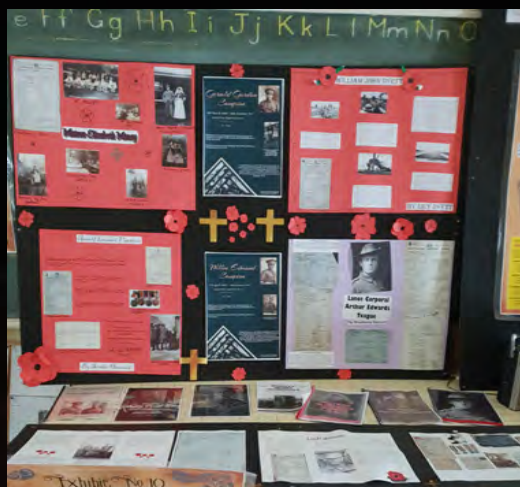

The Maitland Museum hosted over two hundred visitors on the evening of August 21 for Central Yorke School's 2019 Project Based Learning Expo.

The aptly named 'Night At the Museum' showcased student learning around the theme of local history with families viewing firsthand the practical and research based projects students had been working on throughout the term.

To accommodate the projects the museum's meeting room was transformed into an exhibition gallery with Kindy through Year 9 classes work mounted around the room.

Maitland Model

Centre stage was an ambitious model of Maitland constructed by the Year 6 class complete with scannable Internet links to historic information researched by the Year 8 class. This was supplemented by the

Year 4 class's old and new photos of the town and the Year 5 student's research at the Maitland Cemetery.

Stump-Jump Ploughs

The Kindy students project focused on the stump-jump plough while the Year 1 students had interviewed grandparents and written their own history book. Several classes worked with the museum itself, with the Year 3 students creating

museum scavenger hunts and Year 5 students working on the restoration of the museum gate.

ANZAC Spirit

Year 7 students researched how popular pastimes and activities had changed and the Year 9 class showcased their award winning Premier's ANZAC Spirit Prize essays and research.

Elsewhere in the museum the Year 1's had set up a photo booth and using their photography skills had a brisk evening charging a gold coin donation for professional portraits.

Official Opening

The official opening of the evening was held at 7pm with the school's Senior Vocal Ensemble under conductor Debbie Schwartz leading the singing of the school hymn in the old school grounds. This was followed by the song 'Another Page of

History' which emphasised the historic contributions made by 'everyday' people and was accompanied by a huge montage of local historic photos projected onto the wall of the museum.

A sausage sizzle run by the school, tea and coffee provided by the National Trust Committee and slice and cakes made by the Home Economics students all raised additional funds for the museum which also received a \$500 donation from the school.

The unique evening was well received with older visitors reminiscing about past school-days and many expressing surprise at the expansive museum collections.

Museum staff were very happy with the evening, posting on social media to say “Thank you so much for an amazing evening and all the hard work done by the students to make the evening such a huge success.”

Thank you

Thank you to all the teaching staff at the school who worked with the students on the many projects. Thank you to Groundsman Trevor Allen for transporting students up and back to the museum over the past term. Thanks as well to conductor Debbie Schwartz and the school vocal group for your part in the opening.

Finally, thank you to the museum's National Trust committee for their support and help in staging the event.

Talisha Buckskin, Army Recruit!

Talisha Buckskin is a 19 year old Indigenous FLO student from Central Yorke School.

Tahlia is from Point Pearce Community and is a family orientated student who has faced many challenges living in a rural community.

ADFA Testing

Talisha sat her Australian Defence Force Academy (ADFA) testing last year and made it through to the Navy Indigenous Development Program in Cairns.

Unfortunately, although Talisha completed her six-weeks training she did not make it through to the next stage due to fitness concerns. Despite this, Talsiha loved her time in Cairns and made many lifelong friends.

Keeping On, Keeping On

But Talisha didn't give up.

With assistance and support from Whitelion she continued to work towards her goals and two weeks ago she received a call from the Army Indigenous Development Program enquiring on her fitness and willingness to join the Program in the Northern Territory for six months.

Was she still keen to give it a go?

Of course she was, and last Monday Talisha got the call from the Army nurse who said she had been accepted into the program! and someone from the Army would call her to inform her of the details.

Talisha called me as her case manager to relay the exciting news. She said she could not stop smiling but had better get off the phone and call her Mum and Dad!

The whirlwind of news continued with Talisha receiving a call from the Army Indigenous Program Officer congratulating her on being accepted and informing her she was leaving for Darwin on Thursday!

The Program

The ADFA Program is residential and designed to assist applicants in achieving the prerequisite requirements to enter the Army as a recruit. The process will introduce her to the Army culture, improve her academic foundations, and provide her with the skills, knowledge, attitude and confidence to be an effective soldier. Talisha's accommodation, meals and all

medical are funded by the Army and she will also receive an Army income throughout this time.

Within three days of finding out Talisha had left her hometown and family and headed to Darwin for the opportunity of a lifetime. Nervous but excited, Talisha knew she had support behind her to assist her with achieving this big step.

I am so very proud of this young lady and what she is about to embark on and achieve. She is a real inspiration to not only her own community and culture but showing all young people that perseverance and courage can lead you to great opportunities.

Cori Pollard | Whitelion Case Manager

Spotlight On

Kadina Show

The CYS Goats and Steer teams had their first exhibition at the Kadina Show this month. Congratulations for their wins - First Place in the Grand Parade and First Place in the Steer Competition.

Well done to all staff and students at the show including Ali Adams, Jackie Smart, Jaynelle Le Feuvre and Danny Le Feuvre. Congrats also on the pre-show preparation by the Ag classes and teachers Jaynelle Le Feuvre and Sarah Townsend.

Ag Studies

Ag Open Day

The ag students held their annual Open Day on the afternoon of Thursday August 22.

There was a great turn out of parents, visitors and classes who toured the ag block and saw the students in action with

the animals. During the afternoon, the goats and steers were led through their paces, there was a delicious pork BBQ run by senior students, sheep were rounded up and checked and baby animals were hand fed.

from the head of Point Pearce.

Dave Love

Bonfire time

As mentioned in Newsletter 13, all of the children of the Point Pearce Campus have been busy this term building a bonfire out the back of the school. After the big build up, last Monday, August 12th. saw the bonfire finally lit! Together we had between 55 and 60 children, staff and community members there.

Graham our grounds person had the honour of lighting it. All of the children were seated around it on seats when he lit it. The flames and heat were amazing!

Every child collected their own marshmallow stick and waited patiently for the fire to die down to coals, so that

marshmallows could be toasted. Potatoes in jackets were also placed into the coals as well.

The children and adults had a fun time toasting their marshmallows, and the potatoes were roasted beautifully!

A barbecue was also cooked for everyone to enjoy. Everyone there had a great time.

The next day the children used charcoal pieces from the fire to draw a bonfire picture each. They also made an 'Our Bonfire Book' using photographs, to share with their friends at Maitland Campus.

The plan is now to follow this experience up with a more traditional meal, cooking up with a more traditional meal, cooking wombats, kangaroo and damper in a fire.

2019 IMS Music Camp

Stephanie Gersch, Ashlee Radford, Kira Davies, Sophie Davies, Ben Allen, Josh French along with teacher, Debbie Schwartz, participated in the annual Instrumental Music Camp which was held at Port Hughes (4th August - 6th August). The students had the opportunity to play in a

Concert Band of Intermediate and Advanced Instrumental Music students from other country regions. The camp concluded with a concert held in the Moonta Town hall with an extensive repertoire including favourites Metallica's 'Enter Sandman' and Hairsprays 'You Can't Stop the Beat'.

Youth Opportunities | Student Scholarships

Youth Opportunities are now offering thousands of dollars in financial aid scholarships to graduates to support them in their future studies.

Thanks to a partnership with the Adam Scott Foundation, one Youth Opportunities graduate will also receive their full university tuition for free. Valued at \$75,000 and offered annually, the University Scholarship allows them to pursue their undergraduate studies at the South Australian university of their choice.

Youth Opportunities graduates may also apply for a range of school based scholarships worth up to \$1,500 in the form of career guidance, financial assistance, and academic support.

Thirty nine students across the state received scholarships last semester, which ranged from laptops and photography equipment, to acting courses and school supplies. Among

these students was Kaylee Short from Central York School, who was awarded driving lessons.

The next round of scholarships are now open. Any Youth Opportunities graduate is welcome to apply, with applications closing on Monday 9th September. Visit **youthopportunities.com.au/what-we-do/scholarships/** for more information and to apply.

Central York School has an ongoing partnership with Youth Opportunities, as we are committed to our students' welfare and development. The Personal Leadership Program run by Youth Opportunities is offered to our Year 10 students and aims to increase students' resilience and wellbeing, as well as promoting career planning, achieving goals, leadership, and communication skills. Graduates receive SACE points upon completion, and are provided with ongoing support throughout high school.

A Night of Music

On Wednesday August 14, CYS hosted over eighty Immanuel College music students for combined band and choir workshops and a full evening concert. On arrival, the visitors split into three groups, with their string section heading to the Maitland Retirement Village, the choristers to the school activities room and the band members to the Performing Arts Centre.

The Immanuel musicians were joined by the Yp Combined Schools Band and conductors from both schools put the students through their paces with warm up exercises and rehearsal of the songs

that would be featured in the evening concert. The singers were also being put through their paces, and with the addition of Maitland Lutheran School students, the activities room was bursting at the seams!

A fabulous evening meal was catered for by the Parents and Friends in the Home Ec room. This proved very popular and warranted a special mention at the evening concert!

The PAC was full for the combined 'Night of Music' with a seventy piece concert band lifting the ceiling with Fantasia and 'September'.

CYS Performing Arts Centre
Gold Coin Donation

The Immanuel band played some solo pieces then the string group entertained with a selection of classical pieces. THE CYS Vocal Ensemble performed next, to vigorous applause with the evening rounded off with the beautiful sounds of the combined choirs.

The evening was a great opportunity for over 130 students from Adelaide and across the YP to come together and make music for an appreciative audience.

Thank you to...

- 9 Stephanie Gersch, Sophie Heinrich
 - 8 Alice Burrows, Bethany Hollams, Elizabeth Dodd, Aidan Shipp, Annabelle Smart, Kira Davies, Ashlee Radford, Zeph Harris
 - 7 Nicholas Heinrich, Taylor Davies, Molly Rowe
 - 6 Sophie Davies, Morgan Shipp
- Jarrod Tucker and Liam Dodd for their help managing the stage
 - Karen Crawford and the Parents and Friends committee for coordinating and feeding us all a wonderful meal.
 - Betina Davies for supporting the P&F and setting up the Home Ec Centre.
 - Pat Hasting for helping with catering especially while on leave.
 - Shirley Lands, Jackie Smart and Kelly Whittaker for supporting our students with your presence and enthusiasm.
 - Amanda Gersch for ticket sales and supervision
 - Tim Tuck for the fabulous advertising posters, lighting and sound.
 - Tim Schwartz for setting up the PAC for the performance.

Parents & Friends

We recently catered for the Immanuel College visitors and our CYS band members for dinner on Wednesday 14th August. This was not only a nice fundraiser for our group but also provided the service of feeding 130 or more hungry students and staff. As the P&F president, I am so proud of the team effort that went into a successful evening, with many compliments received from our diners, as we took over the Home Economics Centre and utilised their space and facilities.

Big thanks to Emma Mann, Janine Burrows and Mandy Amey, who all got busy and cooked delicious curries, and Pat Hasting, who very kindly made us a yummy pumpkin soup that we could serve to our vegan and vegetarian guests. Thank you also to our P&F members Fiona Hollams, Sally Davey, Ali Palin, Michelle Geater-Johnson, Belinda Wheare and Kate Butler for their donations

of everything from butter to bread rolls and sauce to party pies. And a very special mention must be made for Cheryle Schwartz and the chicken platters, salads, the dozens of pin wheels and homemade sausage rolls she contributed towards the dinner, thank you.

The preparation and serving on the night went smoothly with a massive amount of work from Betina Davies, Belinda Chapman, Kim Radford, Fiona Hollams, Janine Burrows, Kerrie Rowe and Tim Schwartz, thank you all for your time and effort.

Being a member of our P&F does not need to be a huge commitment, we are grateful to those members who contribute where and when they can. Our next P&F meeting will be held on Thursday, 5th September at 2pm in the CYP library. We enjoy seeing new faces and welcome anyone who would like to make a positive contribution towards our school.

Karen Crawford | P&F President

Carly Ryan Foundation Fact Sheets | SnapChat

Each fortnight we will be highlighting a popular online application. This week's fact sheet from the Carly Ryan Foundation is Snapchat.

Snapchat is a hugely popular messaging app with young people throughout the world.

If you would like to discuss any issues your child may be having please contact me at the school on 8832 2613.

SNAPCHAT

Snapchat is a popular messaging app that lets users exchange pictures and videos (called snaps) designed to disappear after they're viewed.

How does it work?

On Snapchat, users go by a handle.

To add friends, you can upload your contacts, search for people you know or use the 'Quick Add' feature of add friends of friends or strangers easily. You can also automatically add someone by taking a picture of their "Snapcode," a special QR code unique to each user.

To begin a conversation every Snap starts with a photo or video. Snapchatters can layer text, emojis, doodles, and more on top, and choose how long they want the Snap to be displayed (up to 10 seconds). Then, you can send the Snap to one or more friends. Stories is a feature that lets you string Snaps together into one longer narrative that stays available for 24 hours.

Be mindful who are you sharing images with and always remember that everything on the internet is permanent. Make sure you are happy for potentially anyone to see your snaps and share without permission.

Live Stories

Live Stories are compilations of Snaps submitted by Snapchatters from events and locations around the world. Discover allows you to explore channels from established publishers who curate their own content. The Discover screen in Snapchat also includes a selection of the day's Live Stories.

Video and Text Chat

Snapchat also allows for one-on-one chat. Like Snaps, chats are cleared when a recipient leaves the Chat screen. But you always have the option to save a message you'd like to keep.

Lenses, Filters and Stickers

There are many ways to customise the look of your Snaps. Lenses add real-time special effects and sounds to a Snap. Filters offer different design overlays. Geo-filters are a popular way to customise your Snap at specific locations or events around the world. Stickers are colourful images and cartoons that give you additional ways to share content.

Memories

Memories is a private collection of the Snaps and Stories that you choose to save and that don't disappear. You can use Memories to create new Stories and Snaps. You can also choose to store certain Memories in the password-protected "My Eyes Only" section, which is an important feature for parents to be aware of.

Snapcash

Snapchat's payment feature is not for users under 18, but you should know about it so nobody "borrows" your debit card to pay someone back or receive money via Snapchat. Snapchat partnered with Square Inc., to enable users to link their Snapchat and debit card accounts to be able to make peer-to-peer payments for things like paying someone back for lunch.

Spectacles

Spectacles consists of sunglasses with a built-in video camera. The glasses light up to show that you are taking a Snap, this may not be obvious to everyone at first so if your kids are using Spectacles, talk with them about protecting other people's privacy by asking permission before recording them. You can connect the glasses directly to a phone via Bluetooth or WiFi to add videos to Memories.

Challenges

Snapchat is the number one application used for 'sexting' or 'sending nudes' between underage people. Users must be mindful of the social and legal consequences of sending images like these. If the user is under 18 years old it is illegal for them to produce, distribute or possess these types of images.

Child abuse pictures are illegal if they are:

- asked for;
- taken;
- received and kept; or
- sent, posted or passed around

The maximum penalty for sharing child abuse material can be up to 15 years in jail this includes an offenders details placed on the sex offender register.

YEAR 7 POTTERY

The Year 7 Class have been learning together about pottery and how to make your own pots. They've investigated different techniques such as coiling the clay into spirals or pinching it together then began creating their own pots. They've learned lots of new vocabulary about clay and pottery and are developing skill in forming 3D shapes as well as patience in the process.
